

Getman - Intuitive Concrete Sprayer

Getman - Intuitive Concrete Sprayer

Getman Corp. launched the new Pro-Shot Concrete Spraying Vehicle, which the company described as intuitive to operate and easy to maintain. It enables technicians to apply consistent, high-quality layers of sprayed concrete, Getman said.

Features include a nozzle that easily disassembles for cleaning, a 2.5-m boom mounted on the centerline of the chassis, a 10-in. touchscreen with Wi-Fi and Bluetooth capabilities in the cab, a dosing management system that provides real-time spray process information, remote control of chemical additive dosage, a chemical tank volume of 700 liters, and a fuel tank capacity of 250 liters.

The sprayer offers a balance between a manoeuvrable chassis size and a layout that facilitates safe and easy daily maintenance, Getman said.
